Importing a Certificate

- 1) If an employee or community member already has a Respect in Sport certificate they are required to import it on the appropriate website. They will then need to print off the main screen that shows their import date to give to the RCMP.
- 2) In order to import a certificate, the community member must go to the following website: <https://swiftcurrentpublic.respectgroupinc.com/>

From there they need to click on import and put in the certification number from their existing certificate. They will be asked to answer a security question that they would have set up when they first took the training.

Once that is complete a summary page will show the import date at the top right of your screen. This can be printed off and taken to the detachment when completing the record check with the RCMP for the Youth Certified Card. [See next page for step by step instructions/illustrations](#)

Step 2

Step 4: Once you have completed the Respect in Sport program you will have to print off a copy of your certificate, or if imported, a copy of the website with the new certified/imported date. This is the first document required by the RCMP to receive your Youth Certified Card. You can do this by hitting the Print Screen button on your keyboard, and then going to a word document and hitting paste.
