Email: court4council@gmail.com

Courtney Stewart was born and raised in Swift Current and is happy to be raising her family here. She works as a CAD Technologist and is a dedicated volunteer with the Kiwanis Club of Swift Current and the Swift Current ACT, and is the Chair of the Swift Current Library Board.

Courtney is the Co-Founder of the Swift Current Pandemic Support Network Facebook Group which supported our community through an unprecedented crisis, and of the Take Back the Night March in support of victims of sexual violence.

Courtney is passionate about accessibility, inclusion, and equality, and these three pillars heavily influence her policy ideas and platform. Within her platform are specific ideas - upgrading the Public Library in its current location, increasing accessible playground equipment, and expanding the after-school program offered by the City. Courtney believes in growing Swift Current affordably, with a focus on supporting its citizens.
