

Warren Hope - City Councilor Bio

Warren is old enough to remember the blue walking bridges, the Healy Hotel, the Drive In, and swimming at Elmwood park. He wants to ensure we grow as a City in a responsible and careful manner without forgetting who we are and where we came from.

Ensuring Swift Current is where his daughters are proud to raise their children is his goal.

As an Associate Portfolio Manager and Professional Accountant with 26 years of experience he feels he would be an asset to the city as we make tough decisions about City finances. All levels of government will be making tough choices over the next few years. Warren's volunteer experience has allowed him to be involved in multi-million-dollar projects and to serve on one National Board.

He would be humbled if his fellow citizens were to choose him to represent them at City Hall
