My family and I moved to Swift Current in 2000. We volunteer and support various programs within the community, coached minor league sports teams and were a billet family for the Swift Current Broncos . My work saw me holding various positions: Classroom Teacher, Vice-Principal, Principal, Hutterian Coordinator, and Superintendent of Schools.

Our future is in schools! School Board Trustees are entrusted by the public to make informed decisions and develop policies that support learning for all. Chinook schools partner with families to support our children who are learning to become productive members of society. If elected to serve as a Trustee, I would draw on my 31 years of experience in education to support all Chinook students and their schools in fulfilling their potential. Our future is sitting in their classrooms right now. Let's partner together to provide them with the foundation to build their future and ensure ours.
