You learn many important things being an entrepreneur for over 20 years. You're the laborer, IT department, janitor, CEO, CFO, marketer, logistics coordinator and customer service. But most importantly you learn to appreciate every dollar that comes into your business and to analyze every dollar spent on improving it. This is the skillset I will bring to my position as your School Board Trustee.

For those that know me, know all of the years I spent volunteering in numerous non-profit groups around the Southwest has always been for the kids. Whether its been teaching hunter safety, president of the Barracuda Swim Club or coaching numerous sports. All has been done to improve the lives of our kids.

I look forward to being your representative at the Chinook School Division for my kids, your kids, your grandkids and the kids of tomorrow. **I would appreciate your support!**
