C/O Lee Schmidt,
Box 340
SWIFT CURRENT SK S9H 4G3

Attention Waterworks Owner/Operator:

RE: Precautionary Drinking Water Advisory for *City of Swift Current* - Rescinded

The Water Security Agency (WSA) is satisfied with the *two sets of* negative bacteriological sampling and adequate disinfection residuals and turbidity values from samples that have been collected from the water distribution system following the recent waterworks system depressurization. Therefore, effective immediately the WSA is rescinding the **“Precautionary Drinking Water Advisory”** for the residents and users of the *City of Swift Current’s* water supply.

For further information, please do not hesitate to contact the undersigned at (306) 741-7718 or Scott.Klippenstein@wsask.ca.

Sincerely,

A handwritten signature in black ink, appearing to read "Scott Klippenstein", is written over a light blue horizontal line.
